

OUR PARTNERS

Our partners in the project, supporting the project manager and the cluster in attaining the project aims are:

Italian Chamber of Commerce for Germany (ITKAM): they support the implementation of qualified meetings in Germany for all the involved sectors, in particular in building a relationship with German buyers: www.itkam.org

Italian-German Chamber of Commerce (ITALCAM): they support the implementation of qualified meetings in Germany for all the involved sectors, in particular as regards meetings with German institutions: www.italcam.de

Chamber of Commerce of Luxembourg, supporting structured B2B meetings in Germany, thanks to the Enterprise Europe Network:
<http://www.cc.lu/la-chambre-de-commerce/la-chambre-de-commerce/>.

EEN - SIMPLER, offering the opportunity to implement B2B meetings in Germany and supporting our companies throughout the process, from registration to scheduling: www.eensimpler.it

CNA Innovazione – accredited center for innovation and technology transfer in Emilia Romagna; they support our companies in the choice of their innovation and technology contexts, in order to present them at the best in occasion of B2B meetings. www.cnainnovazione.net

Clust-ER Mech, a Mechatronic Cluster, brings its expertise in promoting innovation in Mechanics and Mechatronics, counting among its members companies, innovation centers, research laboratories and training institutes <http://mech.clust-er.it/>

Expo Modena, giving support for the relation with the Fair, as regards the stand rental, its set-up and all the services connected to the participation in the fair exhibition:

Emilia Romagna Region. Through their policy of market internationalization they design and implement the regional services in favor of the internationalization of companies, of the research system, of innovation, of training, of high education and culture. They organize the international promotion activities of the regional system; coordinate the regional trade exhibition system by defining the regional schedule, and certifying the quality of processes and data. They participate in planning and managing the activities connected to big international events. In particular, through the funds granted to the project “Mecworking in Hannover 2019” the Region takes active part in its activities with its support and institutional presence, in order to strengthen the competitive positioning of our companies and of our area in one of the most important HUBS at world level.www.regione.emilia-romagna.it.....
